Navigil Service and Navigil 580 wellness wristwatches

More time for your loved ones to enjoy life at home with confidence and freedom.

Wearable help

User, caretaker, and society benefits from the greater independence offered by Navigil. Features such as voice connection, emergency call, safety zones and status information, combined with an extended battery life ensures peace of mind and cost savings.

Navigil Service

Reach, locate and manage

Easily configurable service features for families or professional care providers. With wristwatch mass management customers can easily change settings of any number of devices with a click of a mouse.

Location, log, and statistic reports

Navigil Service analyzes the data enabling the caregivers to determine if an action is required. As big deviations in activities or wellness statistics are registered, the notification service, including an intelligent alert routing, ensures that help is always at hand.

Event and alarm log Map settings

The Event and alarm log table displays a list of events and alarms. The table has columns for 'Status', 'Event type', 'Event time', and 'Event location'. The events are color-coded: red for 'Alarm type', orange for 'User has entered safe zone', green for 'User has left safe zone', blue for 'Battery empty', and purple for 'SOS call no answer'. The table also includes a search bar and a navigation menu on the left.

“I am never alone”

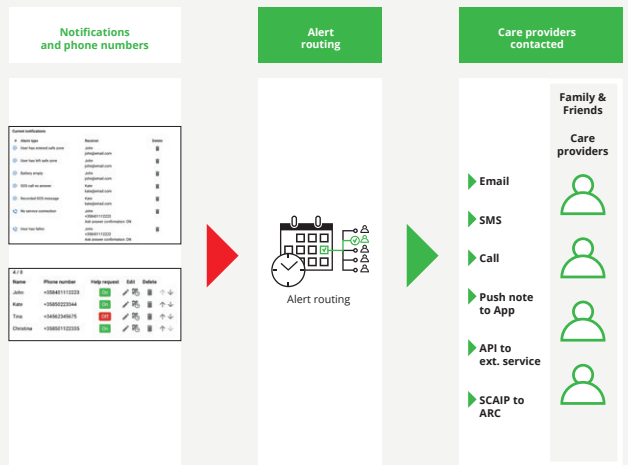

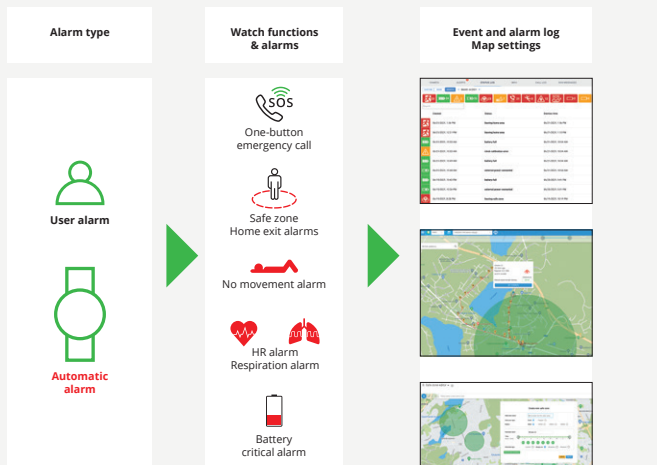

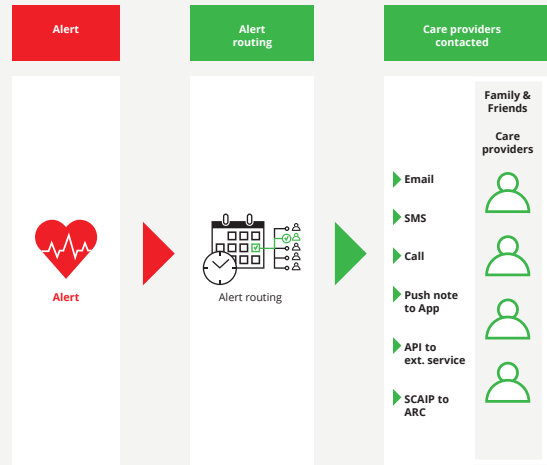

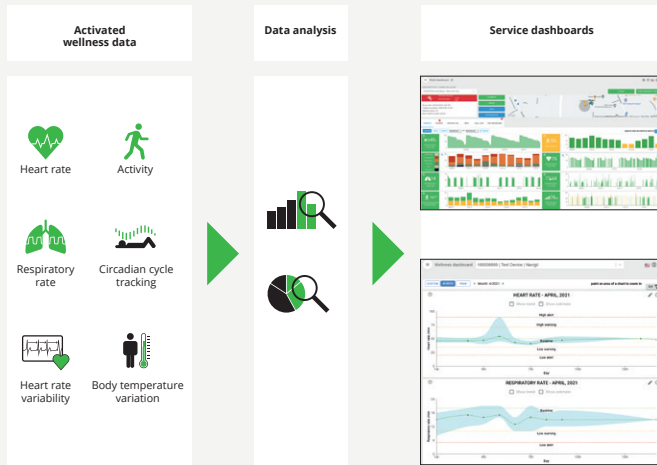

Anna 67 yrs

“I love to walk and sometimes I hike some easy trails. These little adventures must be safe, so my son gave me the Navigil wristwatch. He says that this watch tells him where I go. First, I thought that he fooled me, but then he showed me how to call him – with Navigil! I feel safer and my son feels that he’s closer.”
