Navigil Suite

Navigil Service and Navigil
580 wellbeing wristwatch

More time to enjoy life at
home with confidence and
freedom.

" I am never alone"

Elina 67 yrs

"Sometimes I go for walks in the park. My son gave me the Navigil wristwatch. He says that this watch tells him where I go. First I thought that he fooled me, but then he showed me how to call him – with Navigil! I feel safer and my son feels that he's closer."

Navigil Service

Quality of Life

Wearer, caregiver and society benefit from the greater independence offered by Navigil. Features such as mobile phone calls, emergency call, safety zones and status information ensure peace of mind and cost savings.

Navigil Service —Share and Care

Easily configurable service features for families or professional care providers.

Navigil Service—Location, log and statistic reports

Navigil Service analyses the wellbeing and activity data enabling caregivers to determine if preventive care action is required. As big deviations in activities or wellbeing statistics are registered, the notification service, including an intelligent alert routing, ensures that help is at hand.
